

made an  
impact on

die-tech

*“It’s tough work challenging 30+ years of success to evolve our people and systems into what will enable Die-Tech to thrive for another 30+ years. The focused training that MANTEC brings to the table has been essential to grow both our top and bottom line during very challenging times. We could not do it alone. MANTEC is truly Die-Tech’s partner in productivity.”*

## **DIE-TECH, INC.**

- Employees – 50
- Founded in 1974
- 34 Years in Business
- York Haven, PA/York County
- [www.die-tech.com](http://www.die-tech.com)

## **OVERVIEW**

Manufacturer of precision metal stampings for the electronics, medical, automotive, military, aerospace and telecommunications industries. Design assistance, rapid prototyping, practical die construction, and long term production of high quality, cost-effective precision metal stampings are provided to a diverse industrial marketplace.

## **IMPACT**

### Historical progression

Worked with MANTEC since January 1997 on 22 projects. Early projects were mostly training oriented. In 2005 moved to the next level and started investing in market development, software programs and LEAN continuous improvement projects. The latest project includes new product development using the Eureka! Winning Ways process.

### Company Milestones

- Sales per employee increased 23% over 3 years
- Scrap rate 1/2 of industry standard
- Value added per employee increase of 4% in last 2 years
- Developed engineering and fabrication system that cut standard industry time by 30 to 50%
- 4x increase (+\$400,000) in automotive segment sales in 2007
